Boats Leaving To-day.

By referring to advertisements in another column of this morning's paper, it will be seen that the Argosy leaves for Cincinnati to-day at 5 P. M., and the R. R. Hudson for Pittsburgh at 12 M.

COMPANY ORGANIZED.—Council at its session last night confirmed the selections made for a home company in the Eighth Ward. A roll of hose has been placed in that portion of the city, and residents down there now have pretty fair security from the ravages of fire.

POLICE COURT.—The only case before the Police Court yesterday morning was that of James Kehoe, continued from Monday's session. Kehoe was charged with disorderly conduct and the testimony showed it to be rather an aggravated case. He was fined ten dollars and costs.

PATENT ITEM.—During the week ending Tuesday, 5th inst., a patent on an improvement in wash boilers and stoves was granted to U. J. Duffield, of this city. Mr. Duffield's invention is said to be one of merit, and it is believed will be very popular with those who are directly interested in laundry matters.

PERSONAL.—Col. Campbell, member of the Constitutional Convention from Brooke county, reached the city yesterday, from the "Permanent Seat," en route home. Col. C. represents the Convention as making good progress, and thinks its labors will be closed about the 10th proximo.

COURT COURT.—The following are the only items of interest transacted in the Circuit Court, yesterday: State vs. Coleman, indicted for unlawful cutting, stabbing, &c.; defendant entered into a recognizance with a penalty of five hundred dollars for his appearance at the next term.

Final decree in the Gas Company case was entered yesterday, and an undertaking was filed by the company, preparatory to taking an appeal.

Adjourned until 9 o'clock this morning.

CONCERT IN MARTINSVILLE.—Those who were so fortunate as to attend the vocal and instrumental concert, on last Thursday evening in Commercial Hall, under the direction of Mr. J. B. Wallace, enjoyed a rare musical treat, and went away delighted.

Captain J. Dean, who always sings well, even without trying, excelled himself. Miss Lucy Blucher, who presided at the organ, always acquits herself handsomely. By the gratulations instruction given by Messrs. Wallace and Dean in the Methodist Episcopal and Presbyterian Sabbath schools, and otherwise, large numbers of the youth of Martinsville are learning to sing, and to sing well. That town may well be proud of its accomplished musicians and of its musical talent and culture.

FESTIVAL.—Attention is called to an advertisement in another column announcing a festival to be held to-morrow evening in the basement of St. Matthew's church under the auspices of the "Busy Bees"—a class of little misses in the Sunday School connected with that church. Quite extensive preparations have been made to insure the success of the affair, and a most pleasant occasion is anticipated.

THE BUSY BEES SOCIETY OF St. Matthew's Sunday School will hold a Festival in the basement of St. Matthew's church, Thursday evening, 14th inst. Doors open at 7 o'clock. Admission—grown persons, 25 cents; children, 15 cents.

PHOTOGRAPHS of Bishop Simpson and Chaplain McCabe can be obtained at Brown & Higgins.

TWENTY-FIVE Organ and twelve Piano Boxes for sale cheap at Harding's Music Store.

CITY COUNCIL.

Second Branch.

A regular monthly meeting of the City Council was held last evening. In the Second Branch, President Forbes occupied the chair. Present—Messrs. Allmeyer, Blair, Crawford, O. J. Crawford, H. J. Howard, George Logan, List, Mo-Adams, Phillips, Sheppard, Smith, J. C. Smith, P. Steger, Viewig, Waterhouse, and Weisberger.

The minutes of the last meeting were read and approved.

REPORTS.

Report of the Trustees of the Gas Works for the months of November, December and January was read. The salary of the Secretary has been fixed at \$1,200 per year from March 1st. Amount received from all sources, \$3,013.13. Balance on hand, \$1,519.45. Referred to the Committee on Lights for examination and report.

The Committee on Lights recommended that the report of the Gas Commissioners be referred to them, be received and filed; also, for placing bulletin board on gas post at north corner of Market and Second streets, provided travel be not interfered with; also, that the committee be authorized to receive proposals for lighting the public lamps in the 7th and 8th wards, the bid to be awarded to the lowest and best bidder, subject to the approval of Council.

The report of the Superintendent of the Water Works was read and placed on file. The Committee on Water Works reported in favor of paying bills for labor, &c., \$509.93; also, bills for materials, &c., \$138.60; allowing the following reductions of water rent: A. J. Lyda \$14.00, Henry Vass \$50.00, N. Little & Co. \$30.00, A. W. Campbell \$6.87, Adversely on the petition of J. B. Habberfield, Frank Stauffer, Carl Gauding, Eliza Duffy, Julius Lohse and Joseph Grimes. Adopted.

Report of the Gas Commissioners of receipts and disbursements from January 1st to February 29, \$2,637.64; receipts during January and February, \$14,381.32; total, \$17,019.06. Disbursements—Paid orders of trustees, \$6,414.40; reserved to pay interest and retire bonds, \$7,500.00; total disbursements, \$13,914.40; balance on hand, \$3,104.66. Referred to the Committee on Lights for examination and report.

Receiver's report for the month of February was read. Balance in Treasury February 1st, \$4,007.03; receipts during the month, \$1,177.81; total, \$5,184.84. Disbursed, \$5,630.97; balance in the Treasury March 1st, \$11,164.12. Referred to the Committee on Accounts for examination and report.

City Sexton's report for the month of February was read and ordered to be filed. The Committee on Streets and Alleys reported in favor of paying bill of A. J. Long, \$126.37; Scheuile & Lutz, \$301.82; W. C. Smith, \$3.00; instructing the Street Commissioner to set the curb on West side of Market street, from the South wall of Market street bridge to Webster street.

The committee also reported that they had received several proposals for grading Clay street, from Seventh to Eighth, as follows: James Haley, 35 cents per cubic yard; James Smith & Co., 23 cents; Geo. Crumrine, 20 cents; J. A. Martin & Co., 18 cents; and James Bradley, 15 cents. Mr. Bradley being the lowest bidder, the committee had awarded the contract to him, and asked that the award be confirmed.

The Committee on the Fire Department reported in favor of the payment of bills amounting to \$115.07; also allowing the trustees of Atlantic City to place their library in the hall of the Atlantic engine house, with the consent of the Board of Control; also, that the Chief Marshal of the Fire Department be appointed and directed to act as Fire Warden for the city, and to receive two dollars per day when actually employed.

Recommendations of the Committee adopted, except the last, which was referred to the Committee on Ordinances.

The Committee on Gas extension submitted the report of R. T. Cloverdale, making estimate of cost of proposed extension of mains and enlargement of gas works, and also the following resolutions:

Resolved, That the Finance Committee be and is directed to ascertain and report to Council at an early day, if \$50,000, or more thereof may be necessary to make the proposed additions to the gas works and street mains, can be obtained, and the terms on which it may be obtained.

Adopted.

The following is Mr. Cloverdale's report:

CINCINNATI, O., Feb. 26, 1872.

Geo. Baird, Chairman Committee on Gas, &c., Wheeling, W. Va.:

DEAR SIR: In accordance with your request and instruction, I have visited Wheeling and examined the gas works with the view of ascertaining what improvements are necessary in order to furnish the city and private consumers with an abundant supply of gas of the highest illuminating power and free from impurities; also to furnish you with an approximate estimate of the cost of such improvements. In accordance therewith I have the honor to submit to you the following report and estimate:

Report House.—I find the apparatus for generating gas, although not in good order, most too valuable to be abandoned at present, for by adding two more benches of retorts, and renewing and re-setting such as are worn out, you would then have a generating capacity sufficiently large to supply gas during the next twelve months.

Purifying House.—The purifying capacity is too small, and cannot be worked with economy either in labor or fuel, in manufacturing gas of the highest illuminating power, except at an increased cost; however, with close attention and careful management they might answer for, say twelve months longer. I would, however, recommend that you at once arrange to erect a new purifying house, with four purifiers, with two tiers of lime trays in each, with dry centre seal valve, also one patent Bolter washer and one set of three annual condensing tubes, with ten inch connections throughout.

Gasholder.—I find the gasholder capacity of the works entirely too limited, having a total capacity of only 45,000 cubic feet to supply a consumption of not less than 100,000 feet without allowing for an increase of consumption of say 25 per cent in your present number of consumers, if you would furnish an abundant supply of good gas.

In view of your present and future wants, I would recommend you to erect one gasholder, 80 feet in diameter and 100 feet deep, and to give a working pressure of 32 lbs. per inch, and to have 8 cast iron columns and lattice girders, with 16 inch pipes, with necessary drive boxes, outlet and inlet pipes, metal plates, anchor bolts and plates complete.

You could get along for sometime with a gasholder of less dimensions, say 60 by 18 feet, or 60 by 20 feet, but I think you should let nothing but the want of sufficient funds deter you from putting in at once the largest and best, viz: 80 by 20 feet, as from the low price of coal and your ability to supply the want of gas of good quality, you may reasonably anticipate a very large increase in your consumption on your present line of distribution, and also a large increase on your contemplated line of extension.

Excavation.—I would also recommend you to put in an excavator capable of passing say 15,000 cubic feet per hour, with steam engine, boiler, valves, by-pass, governor to regulate the speed of the engine, pressure and vacuum gauge, and connections of 10 inches in diameter, and fully complete the same. It is necessary to have one (an excavator) to reduce the back pressure on clay retorts, prevent them from choking with carbon, thus rendering them entirely useless, and the duration of the retorts longer, and giving you an increase of yield of gas from your coal of at least 10 per cent. By having an excavator you can have your gasholder to give more pressure, thus increasing your distributing capacity.

I would also recommend the addition of the works of one governor to regulate the flow of gas and to prevent any undue pressure in the gas mains, and thus prevent the loss of gas in the burning of the street lamps after the private consumers cease burning.

Street Mains.—In street mains, I would recommend the laying of one line of 18 inch diameter main pipe, extending from the new gasholder to Fifth street, on alley to Clay; on Clay to Market; on Market to McClure House; from McClure House, on Market, two or three squares, with 8-inch pipe, and then to Bridge with 6-inch main pipe.

On Clay street, leaving branches at the intersection of each street, one of which, with 8-inch branch, crosses the iron bridge with 8-inch main to the second street, and then continue a line of 6-inch main as may be needed for future consumption, connecting the pipes from both the iron and stone bridges at favorable points on the line; also, leaving branches in the line of 10, 8 and 6-inch mains on Market street at the intersection of each street, for increasing the flow of gas as may be necessary in making connections to meet present and future wants of consumers.

To my remarks respecting the generating apparatus I would add that, although you may be able to get along another year, yet I would recommend that you at once build a new retort house, for say 10 benches of 5 retorts each, and in making an addition of two new benches this season to have them completed in the new house, and afterwards to have new ones added as the benches in the old house need renewing. Permit me also to repeat what I have said before, viz: that as soon as you have your works and main pipes in first-rate condition to supply all the gas needed, your consumption will be largely increased and it would be wise to provide for the future wants at an early day.

APPROXIMATE ESTIMATE OF NET COST OF MACHINERY FOR WHEELING GAS WORKS.

Gasholder—One gasholder, 80x20 feet, with 16 inch pipes, with 16 inch outlet and inlet pipes, anchor bolts and plates, and valve complete, with a capacity of 100,000 cubic feet, \$13,500.00

Purifiers—Four purifiers, 10x14 feet, with covers, holding slings, test cocks, air valves, and tier of iron plates, with 10 inch connections complete, \$3,500.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Governor—One governor complete, \$500.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

Boiler—One boiler, 10x14 feet, with 10 inch connections complete, \$1,400.00

Retort—One retort house, 80x20 feet, with 10 inch connections complete, \$2,000.00

Excavator—One excavator, engine, &c., with 10 inch connections complete, \$1,400.00

On Centre street, near Fourth, suspended and read and referred.

Petition of Theodore Roller for reduction of water rent was read and referred.

Petition of Charles Rust and others for curbs on South side of Market street, from Market to Zoll, was read and referred.

Petition of M. C. Good and others, in reference to increased water supply, was read and referred.

Petition of Wheeling Hinge Company and others, for reduction of water rent was read and referred.

RESOLUTIONS.

Resolved, That the Street Commissioner be directed to have the pavement laid as directed by ordinance in front of Lot No. 11 at the corner of Main and Preston streets. Adopted.

Resolved, That the Committee on Ordinances be instructed to report an ordinance requiring all persons selling and delivering lime within the city to have the same weighed on the public scales, and furnish the buyer with a certificate of the weight or number of bushels from the city weigher, or one of his deputies. Referred.

A resolution authorizing a crossing to be put down on Madison street, at the north end of Second Ward market house, was received from the First Branch and concurred in.

Resolved, That when this Council adjourn it be to meet next Tuesday evening. Adopted.

Bill of Mary Powell for property destroyed was referred to the Committee on Accounts for report.

Adjoined.

First Branch.

Mayor Jeffers in the chair. Present at roll-call: Messrs. Allison, Blair, Boring, Ewing, Kelley, Reister, Schambra, Shallcross, Stanton, and Wilson.

Mr. Wilson, from the Committee on Water Works, to whom was recommended a memorial report of the Committee granting several reductions of water rents, reported back the same, recommending that the recommendations of the Committee be concurred in. The reductions in the cases of Muldoon and Carroll, marble cutters; Reymann, brewer; Bishop on Whelan, and Albert Stump, were agreed to.

Mr. Wilson, from the Committee on Ordinances, submitted an ordinance in relation to the powers and duties of the Board of Appeals. The object of the ordinance is to constitute the Board a board of equalization, to equalize and correct assessments of real and personal property to raise assessments as well as make reductions. Concurred in.

An ordinance adopted by the Second Branch, constituting the Board of Appeals a Board of Equalization, came up for a resolution directing the Assessors to proceed with the usual assessment.

Mr. Stanton moved to refer to the Committee on Ordinances a memorial report to report an ordinance providing for a general revaluation of real estate, and providing for a Board of Equalization. Agreed to.

CONCURRENCE WITH SECOND BRANCH.

Adopting the report of the Committee on the Fire Department, except the resolution to make the Chief Marshal Fire Warden for the city. This was referred to the Committee on Ordinances, with instructions to prepare an ordinance so as to invest the Board of Control with the duties of Fire Warden.

Adopting report of the Committee on Water Works.

Adopting the recommendation of the Special Committee on repairs of Gas Works.

Adopting report of the Committee on Streets and Alleys recommending payment of bills for curbs on Market street, between the bridge and Webster street, &c.

Adopting recommendations of the Street Commissioner's monthly report.

Adopting report of the Committee on Lights.

Mr. Wilson, from the Committee on Ordinances, to whom was referred petitions asking that barber shops be closed on Sunday and that aisles of public halls be kept clear, reported an ordinance for the latter purpose, recommending it do not pass, and reported it to be inexpedient to legislate in reference to the barbers. The ordinance was tabled.

Mr. Shallcross moved that the Committee on Streets and Alleys inquire into the expediency of laying a new foot walk across Madison, on west side of Market street. Agreed to.

Adjoined.

FLORENCE SEWING MACHINES.

Messrs. Wm. H. Chapman & Co., agents of the Florence Sewing Machine in this city, have recently taken possession of very handsome rooms (No. 93 Market street) in Hamilton's Block. Their apartments have been fitted up in good style, and they are now ready to receive the calls of those who may desire to purchase a first-class sewing machine. The Florence is rapidly winning its way to popular favor, and already ranks, in beauty of construction, ease of working, noiselessness, and excellence of work, with the Wheeler & Wilson, Singer, and Grover & Baker. In many respects it is the superior, and in all, it is the equal of any one of those mentioned.

The sales are steadily increasing as the merits of the Florence become known, and there can be no question that in this particular it will soon outstrip all its rivals. We cordially recommend it to the favorable consideration of all our lady readers who contemplate adding a sewing machine to their household goods. Call and examine the Florence at the number and street given above.

Messrs. Chapman & Co. also agents for Needham's organs, and will furnish them in all styles at prices that defy competition. Special inducements offered to churches and Sunday Schools.

FIRE ADVERTISED AT RELIEF BARRACKS.—We are again called to chronicle another of the many instances in which the "Babcock" has of late averted what might have proved disastrous fires. The subjoined letter explains itself:

CHICAGO RELIEF AND AID SOCIETY, CENTRE AVENUE BARRACKS, SUPERINTENDENT'S OFFICE, Feb. 9.

DEAR SIR: I have had two of your Babcock Fire Extinguishers in these Barracks since they were first put in. We have had twenty-three accidental fires since we opened here, and the Extinguishers at each time have filled the bills as well as an entire brigade could have done—extinguishing the fires in every instance. I am confident that without them we should have had serious trouble.

Geo. W. Carter & Co., General Agents, corner Wood and Second, Pittsburgh, Pa. With Huthinson & Co.

Mr. THEODORE KELLER is admitted as a partner in my business from the first of March. The firm name will hereafter be Henry Roemer & Co.

HENRY ROEMER, Wheeling, W. Va., March 12, 1872.

AGENTS AND CHARGERS for Pianos and Organs wanted at Shell's Music Store.

Is your wish to select your Spring Wall Paper from a large and cheap assortment of all grades, you will do well to call at Paul & Orr's before going elsewhere, and you will be sure to find what you want. Remember the place, Paul & Orr, No. 90 Market street.

ONE HUNDRED pieces beautiful Prints just received at Boyd & Siller's, No. 35 Main street, Centre Wheeling.

MR. HARRIS.—Dear Sir—Permit me to say that I have had a number of the most eminent musicians in the city to say that MATCHLESS GRAND SQUARE PIANOS I purchased of you last September, and, without exception, they have pronounced it one of the finest instruments they have ever played upon.

Yours, A. WILSON KELLY.

Those who will save money should buy their Boots and Shoes at L. V. Blond's.

WANTED in exchange for a Piano or Organ, a small Fire Proof Safe at Shell's Music Store, Monroe St.

CLOSING OUT SALE.—Ten dozen Misses' Leather Shoes to be sold regardless of cost for the next ten days at L. V. Blond's.

SECOND HAND Pianos wanted in exchange at Shell's Music Store.

Rustic Photographs, new styles, at the Partridge Gallery.

In order to close out a lot of Misses' Leather Shoes I will sell them regardless of cost for the next ten days. L. V. Blond.

New styles, new scenery, new accessories at the Partridge Gallery.

CURRIS HESS, merchant tailor, corner Main and Quincy streets, solicits the attention of gentlemen to his fall and winter stock of ready made clothing, consisting of coats, cassimeres, vestings, all new, and comprising every style popular at the East. With a superior stock, a first-class cutter, and the best workmen obtainable, I can guarantee my work, and that my prices will be satisfactory. C. HESS, Corner Main and Quincy streets.

IRON—PHOSPHORUS—GALVANA.—The three best Tonics, skillfully and elegantly combined in an amber-colored cordial, beautifully transparent to the eye, pleasant to the taste, acceptable to the stomach, in Cassell, Hazard & Co's Ferro-Phosphated Elixir of Calaisa Cava.

Each pint contains one ounce of Royal Calaisa Cava, and each teaspoonful contains one grain of iron. Samples furnished free to the profession. CASWELL, HAZARD & CO., Sole Manufacturers, New York. Sold by all Druggists. my34-Webb-daw

Steamboats.

FOR CINCINNATI—THE fine passenger steamer

For freight or passage apply on board or to marl 13 C. H. BOOTH & CO., Agents.

FOR PITTSBURGH.—The fine passenger steamer

R. R. HUDSON, Capt. Wm. M. List, will leave as above on Wednesday, March 13, at 10 o'clock P. M.

For freight or passage apply on board or to marl 13 C. H. BOOTH & CO., Agents.

THE WORLD'S INTERNAL REMEDY.

JOHNSON'S Rheumatic Compound

—AND— BLOOD PURIFIER.

QUICK IN ITS ACTION—PERMANENT IN ITS CURE. This medicine is the prescription of a world-renowned French Physician, who used it in his extensive practice many years before offering it to the public in its present form, and finally becoming convinced of its great curative properties, and desiring to profit those suffering from this terrible disease, consented to have it put up in bottles and sold at the

LOW PRICE OF ONE DOLLAR.

If necessary, we will offer certificates of thousands who have been cured by it, but the best recommendation we can give is a trial of one, two or three bottles, which will certainly relieve the most obstinate case. Try it and be convinced.

We have advertised this medicine for sale by Geo. C. Goodwin & Co., of Boston. A cure or the money refunded, and out of near 500 bottles sold at retail, they have had but 5 bottles returned.

Sellers' Imperial Cough Syrup. The Imperial Cough Syrup contains no spirituous ingredients, and may be used in all cases not requiring active medical treatment. The Imperial Cough Syrup has been used for the last thirty years.

Prepared by R. E. SELLERS & CO., Wholesale Druggists, Pittsburgh, Pa. AND SOLD BY DRUGGISTS EVERYWHERE.

Boots & Shoes.
